Honorable Harley O. Staggers, Chairman  
Committee on Interstate and Foreign  
Commerce  
House of Representatives  
Washington, D.C. 20515

Dear Mr. Chairman:

This is in reply to your request for our comments on H.R. 1306, a bill "To establish a National Resource Information System, and for other purposes." This Agency defers on the merits of the bill to other Federal agencies more directly involved in the substantive areas to which it is addressed.

In our view, the mandatory reporting provisions of section 210 and the inspection and subpoena provisions of section 211 do not apply to Government agencies. Section 107(b) of the bill does require the Director of the Bureau of National Resource Information to establish consultation, liaison and exchange agreements with all departments and agencies of the Federal Government engaged in the maintenance of natural resource information, including CIA. However, CIA information on natural resources would necessarily have direct links to foreign intelligence matters. Any such arrangement between the Director of Central Intelligence and the Director of the Bureau of Natural Resource Information would have to provide for sufficient protection against the unauthorized disclosure of natural resource information involving intelligence sources and methods, pursuant to the responsibility of the Director of Central Intelligence under 50 U.S.C. 403.

The Office of Management and Budget has advised there is no objection to the submission of this report from the standpoint of the Administration's program.

Yours sincerely,

/s/ Stansfield Turner
